

Mohammed KTITE

Full-Stack Web & Mobile Developer

ktite.m3@gmail.com | +212 631-756678 | Sidi Bernoussi, Casablanca

PROFILE

Full-Stack Web & Mobile Developer, from UI/UX design to production deployment. I build useful, intuitive applications with a strong focus on code quality and user experience.

PROFESSIONAL EXPERIENCE

Full-Stack Web & Mobile Developer

INFORISK SA | Casablanca | February 2025 – Present

Analytix Mobile App (Android/iOS)

• Lead end-to-end development of a financial risk management app, from initial UI/UX prototyping in Figma to production deployment.

• Build the frontend with Flutter and Dart, using Provider/Bloc for state management, and implement real-time push notifications.

• Develop RESTful APIs and backend business logic with Spring Boot.

• Manage configuration, versioning and deployments directly to the Apple App Store and Google Play Store.

Ma conformité Web Application

• Develop comprehensive tools for finance and compliance.

• Build the Analytix mobile app and Maconformite.ma B2B compliance platforms.

• Design backend service architecture and responsive frontend interfaces, connecting business goals with technical delivery.

Web Developer

Teleco Maroc | Casablanca | July 2023 – March 2024

E-commerce Platform

Led the design and development of Groupe Teleco Maroc’s e-commerce website for the telecommunications sector, including the product catalog, order management workflows and secure payment integration.

Corporate Website

Designed and developed a full-stack corporate website showcasing the company’s expertise in network infrastructure, telecommunications and IT security, managing the entire application lifecycle from initial mockups to production deployment.

Digital Marketing & SEO Optimization

Applied marketing expertise to create responsive email campaigns for customer communications. Implemented on-page SEO improvements to maximize the visibility of services in search engines.

Web Developer & UI/UX Designer

LDTM | December 2022 – June 2023

• Customized an online consultation app and optimized existing features.

• Built the FitVit meal delivery website, with a particular focus on the interface and user experience.

• Designed visual assets consistent with each project’s brand identity.
